PROFILE

Focused and detail-oriented Data Entry Specialist with extensive experience in Excel spreadsheet management, high-accuracy PDF conversion, and professional web research. Dedicated to helping businesses streamline operations, maintain data integrity, and save valuable time by delivering fast and error-free results.

WORK EXPERIENCE

Freelance Data Entry & Excel Specialist Fiverr & Remote Clients

2025 to Present

- Collaborated with global clients to manage, update, and maintain large business databases with 100% data integrity.
- Designed and built automated Excel dashboards and clean spreadsheets to simplify client reporting.
- Performed daily data validation, quality control checks, and formatting tasks to ensure error-free operations.

PDF Conversion & Document Specialist Self-employed

January 2024 to May 2025

- Assisted international businesses in digitizing records by converting scanned documents and complex PDFs into fully editable Word and Excel formats.
- Maintained a 95%+ formatting retention rate, ensuring precise layout, fonts, and table structures during conversions.
- Reviewed and cross-checked output files to eliminate any spelling mistakes, data discrepancies, or missing information.

Web Researcher & Lead Generator Self-employed

March 2023 to December 2023

- Conducted targeted web research campaigns across various industries to collect high-quality B2B business data.
- Identified, verified, and organized contact lists (names, emails, LinkedIn profiles) into well-structured spreadsheets.
- Maintained strict compliance with data guidelines while consistently meeting daily productivity and data accuracy targets.
